KENSTAR

INDIAN SPIRIT. GLOBAL AMBITIONS.

Transforming Global Homes

Kenstar lays the commitment of an international lifestyle to every global household.
These brand values are reflected in our brand identity.

Kenstar is a name that stands for international quality, style and durability. By introducing a range of high quality product categories, Kenstar lays the commitment of an international lifestyle to every household. Kenstar was one of the first companies to introduce its microwave oven range. And needless to say, it became no. 1 in the consumer preference with a surprising momentum. Kenstar then spotted an opportunity in the then much-crowded unorganized sector and introduced its own range of air coolers. Today, Kenstar enjoys the leader's crown in the category.

These brand values are reflected in our brand identity of 'We Love You'. Kenstar believes in constant technological upgradation and developing value for money products. We, at Kenstar have set up its state-of-the-art design &

development department. This R&D facility is equipped with ultra-modern facilities and highly qualified manpower. Its continuous efforts are primarily concentrated towards meeting the needs of the discerning consumer at the most optimum cost.

Today, Kenstar shares the trust and happiness of millions of families across the world. We feel this is only a step towards building an enduring relationship and introducing a world-class lifestyle to every household. Keeping up with this tradition, more technology frontiers and more products are continuously being developed and upgraded to provide the best value and comfort in every household. In our brand promise itself lies the commitment to strive for a world-class lifestyle and delivering the best-in-class offerings to all.

3 Litre
frying basket

KENSTAR
we love you

KEY FEATURES

Pilot Lamps

2 LED indicators are provided to indicate heating on and power on.

Time Settings

A timer ranging from 0 to 30 minutes is provided with auto-power out function.

Large Food Basket

A food basket with a large capacity of 3 litres helps you fry large portions of food with absolute ease.

Temperature Settings

The temperature setting which ranges from 80°C to 200°C, enables you to set the ideal temperature required for different food items.

Safety

With its auto power-out function, the Day Fryer stops working immediately if you open the drawer while frying is in process.

Hidden Handle

The hidden handle makes it easier to carry the Day Fryer. You can even push it inside, to make the product look sleek and impressive.

REASONS TO OWN THE OXY FRYER

HEALTH

Oil-free frying

SAFETY

No oil splash

AESTHETICS

Stylish & compact design

CONVENIENCE

Set timer while working

Easy to handle

Easy to clean basket
